

Job Description for SRF under the guidance of Professor Alok Bhattacharya

Position of a Senior Research Fellow (SRF) in the ICMR grant entitled “Development and characterization of a non-viral vector for gene transfer and assessment of efficacy in cellular models”

The work involves bioinformatics characterization and designing of a muscle-specific promoter, molecular cloning with a reporter vector and the GNE gene, and assessment of its function. The work is in collaboration with CSIR-IGIB.

Position: SRF with a consolidated salary of rupees 35,000 pm (+ HRA Rs. 3150) for one year.

Basic qualification: MSc or B. tech in biology/life science/biotechnology/biochemistry/genetics with 2 years of experience in a laboratory or industrial R & D.

A person with experience in molecular cloning will be preferred.
