

ASHOKA
UNIVERSITY

Project associate opening

An opening for Project Associate-1 is available in the laboratory of Dr. Kasturi Pal, in the Department of Biology in Ashoka University. The candidate will be working in a DBT funded project with a major focus in GPCR signaling.

The applicants must have an MSc degree in biochemistry, molecular biology or other related streams in biological sciences. The ideal candidate should have good oral and written communication skills and must be a good team player. They should be proficient in molecular biology and biochemistry techniques like PCR, plasmid isolation, cloning, protein analysis by SDS-PAGE and western blotting. Experience with mammalian cell culture is preferable. Interested candidates are requested to send their CV with contact information of 3 references, a research statement and cover letter to kasturi.pal@ashoka.edu.in.

Selected candidates will be informed by email and will be expected to appear for an interview.

Tentative start date: 1st September 2022.
