

**Job Title:** Research Fellow -Contractual (Digital Health Citizenship)

**Reports to:** DTH-Lab Policy and Research Coordinator

**Location:** Remote

**Experience (in years):** (Educational background) The contractual research fellow position is open to students and researchers; candidates having a degree in the field of study would have an advantage.

**Nature of work:**

The DTH-Lab is offering students and early career professionals from low and middle-income countries opportunities to support a specific area of the Lab's research or analysis through their [fellowship programme](#). An important aim of the project is to contribute to building the capacity of future health leaders to shape policy and governance issues related to the digital transformations of health.

**About Ashoka University:**

Ashoka University -India's premier interdisciplinary teaching and research university. An institution that has become a beacon of academic excellence in less than 10 years since its inception. At Ashoka, we encourage you to embrace the new, push the boundaries for continuous learning, and adapt to a world of constant change. Because we believe that each Ashokan is capable of becoming a thought leader.

As part of our thriving and committed workforce, you will:

**Be Mission-Driven:** Champion interdisciplinary learning, innovative pedagogy, and academic rigor to transform Indian higher education.

**Think Strategically:** Collaborate with visionary minds to shape the future of higher education through strategic planning and a forward-thinking approach.

**Act Authentically:** Embrace authenticity and integrity, fostering an inclusive and supportive environment where every voice is valued.

**Take Accountability:** Own your work and drive positive change, as an empowering individual seeking to make a meaningful contribution.

**Build Collaboration:** Experience the power of teamwork and diverse perspectives, working collectively towards our shared goals.

**Deliver Excellence:** Strive for excellence in all aspects, upholding the highest standards of academic excellence, student support, and professional development opportunities.

At Ashoka University, we are on a mission to redefine higher education and create a remarkable space where innovation and collaboration thrive. As a **pioneering force in interdisciplinary learning**, we **continually grow and adapt** to stay at the forefront of educational excellence with emphasis on inclusivity and equal opportunity. Our philosophy revolves around **care, well-being, and connection**, which are deeply embedded in everything we do.

When you join our community, you become part of an extraordinary journey in which you can unleash your potential and make a meaningful impact. Where education empowers, where innovation thrives, and where excellence and humility coexist. We truly believe the world will enrich itself when there is progress with purpose.

**About DTH-Lab:** The Digital Transformations for Health Lab (DTH-Lab) is a global consortium of partners that is pressing for stronger digital and data governance to improve young people's health and well-being and support achievement of the Sustainable Development Goals.

The DTH-Lab will take forward recommendations outlined in the Lancet and Financial Times Commission's report which calls on governments, technology companies and other actors to build trusted digital-first health systems that are supported by value-based governance and action to address the digital determinants of health.

**About the Tools and Resources for Digital Health Citizenship Fellowship:** Digital health citizenship can be defined as the collective engagement and responsibility of individuals, particularly young people, in utilizing digital technologies to enhance health literacy, promote civic participation, and contribute to the improvement of health outcomes for themselves and others. It involves the proactive involvement of citizens in various aspects of digital health, including knowledge generation, community building, data sharing, and interaction with health services and providers.

Through DTH-Lab's initiatives, young people will develop, test and disseminate a digital health citizenship toolkit to build their combined digital, health and civic literacy and skills. The toolkit will then be developed to include information and resources in a variety of formats (e.g. videos, games, briefs, podcasts, infographics). The aim of this fellowship is to identify existing tools and resources for digital health citizenship and assess how the DTH-Lab can fulfill existing requirements and gaps.

**Role and Responsibilities:** The duration of this fellowship will be from **May to August 2024**. The fellowship will be in the form of a consultancy: contractual research fellows will receive a stipend in the amount of **up to 1,800 CHF** for an engagement of **up to 30 days** of work and the completed deliverables. This research will be exclusively desk-based, with virtual interviews, therefore not requiring any additional costs. The stipend will be released in three installments after approved completion of each milestone.

Contractual research fellows will work remotely according to their preferred schedule and location. They will be supervised by the DTH-Lab’s Policy and Research Coordinator. Available support from the DTH-Lab team includes:

- An induction and regular virtual meetings with the contractual research fellow.
- Provision of background materials and contacts for interviews, etc.
- Regular input and feedback on their work.
- Opportunities for the contractual research fellow to discuss his/her research with experienced DTH-Lab partners and build their professional networks.
- Opportunities for contractual research fellows to promote and present their work following publication.

Research Objectives:

- Map existing tools, resources and initiatives for youth on digital health citizenship.
- Assess the strengths and limitations of existing tools and resources and identify gaps.

Proposed Timeline and Deliverables:

<b>Work phase</b>	<b>Deliverable</b>	<b>Approx number of days</b>
1. Induction: getting to know the DTH-Lab and existing work on youth-centred digital first health systems and digital health citizenship	N/A	2
2. Landscape analysis of existing tools for digital health citizenship	Interim report on compilation of existing global, regional and national resources: <ol style="list-style-type: none"> <li>1. Tools for youth on digital health citizenship</li> <li>2. Knowledge / skills / capacity building resources (across various formats)</li> <li>3. Current initiatives for fostering digital health citizenship</li> </ol> May 2024 [Milestone 1 of 3]	7
1. Assessment of strengths and weaknesses	Interim report on the strengths and weakness of existing tools and resources for digital health citizenship June 2024 [Milestone 2 of 3]	7
4. Gap analysis and identification of opportunities	Analysis of stakeholder requirements from digital health citizenship toolkits (through literature review, etc.)  July 2024	5
5. Final proposal on existing and needed components for a digital health citizenship toolkit.	Publication submitted (format to be confirmed) based on the findings from the three interim reports  July- August 2024 [Milestone 3 of 3]	7
Other - additional time to participate in relevant DTH-Lab activities	N/A	2
	<i>Total days</i>	<i>30</i>

**Qualifications and Skills Required:** The ideal contractual research fellow must possess the following:

- **Educational background:** The contractual research fellow position is open to students and researchers; candidates having a degree in the field of study would have an advantage.
- **Research skills:** They possess strong research skills, including the ability to design research assignments, collect and analyze data, and draw conclusions from their findings. They may have expertise in specific research methodologies, techniques, or tools relevant to their field.
- **Publication record:** A track record of collaborations on scholarly publications, including peer-reviewed journal articles, conference presentations, or book chapters is an advantage.
- **Communication skills:** They must show effective communication skills, as they need to communicate their research findings through written publications, presentations, and discussions with colleagues. They should be able to convey complex ideas in a clear and accessible manner to diverse audiences.

### **Application Submission Process:**

Interested candidates can request further background information on the DTH-Lab and its existing work on this topic by writing to [team@dthlab.org](mailto:team@dthlab.org).

To apply for this position, send an email to [team@dthlab.org](mailto:team@dthlab.org) with the subject line 'APPLICATION: RESEARCH FELLOW - DIGITAL HEALTH CITIZENSHIP'. Applications will only be considered if they include the following material:

- Curriculum Vitae / Resume
- Two references
- A maximum of 2 pages outlining your relevant skills and experience and a summary of how you would approach this work.

**Pursuit for Excellence:** The Lab welcomes applications from individuals of all backgrounds. Due to the expected volume of submissions, only shortlisted candidates will be contacted.

**Adherence to Deadlines:** To ensure fairness and efficiency, please submit your application by **23:59 CET, 30th April, Tuesday**. Applications received after the deadline will not be considered.
